Designer Notes:

An impressive façade is just the beginning of the grandeur of this home. The Master Suite and Entry set the tone with some luxurious touches, but its layout is the winner!

With its four Bedrooms and Snug, this home suits a variety of family types, but the Living and Entertainment areas are certainly a feature. The lovely Kitchen has an extensive Pantry and looks out to the Outdoor covered area. The bathroom is spacious and with a Powder Room, your family and guests will be well catered to.

There are many options here, which makes this home a wonderful choice.
